📖 COURSEWORK

Web Technologies
Data Structures
Design and Analysis of Algorithms
Operating System
Database Management System
Computer Networks
Object Oriented Design
Software Engineering

💼 EXPERIENCE

GRAPECITY   Software Engineering Intern
September 2023 – present | Noida, India

- Worked on **.NET Framework**.
- Worked on **JavaScript and TypeScript**.
- Worked on their Award-Wining **Javascript component 'Wijmo'**

🎗 PROJECTS

WEB OS   Github ↗

- This is a project inspired by the Ubuntu OS.
- It has multiple small games embedded in the WebApp
- It gives a wholesome experience of an Operating System on a Browser
- Techstacks used: **Next.js**, **React.js** and **Tailwind CSS**
- This is the live demo of the website **DEMO** ↗

ECOMMERCE APP   Github ↗

- This is a complete **MERN stack** App, with authentication and payment gateway
- This is a **Single Page Application** in **React.js**
- I used **Node.js and Express.js** to create a Backend
- This is the live demo of the website **DEMO** ↗

TEXT EDITOR   Github ↗

- I used **.Net Framework for creating library** Which has all the functionality.
- Used **WinForms** in .NET Framework to create UI
- Used **Adapter Design Pattern** to integrate library and UI
- The library is customizable, it can be imported to implement a text editor as a **Web app, Mobile app, or MacOS app**.
- I implemented the library for the **Windows Desktop App**

WEATHER-WIDGET-APP   Github ↗

- This Web app gives **Weather Report** of any city
- I used **HTML, CSS, JavaScript** to create the website
- The website is fully responsive
- I used **API** calls to Fetch Data and Present it on the front end
- This is the live demo of the website **DEMO** ↗
